

**FROM MANAFORT #2**

**TO:** Ethics Committee Lieutenant Supervisor Simon Cromwell

**FROM:** Ethics Committee Liaison Clara Manafort

**SUBJECT:** What Was Down There?

Simon,

Still waiting on any information you have involving what Goode did at Site-17. Please send anything post-haste because I've done some digging myself and I have overwhelming concerns.

I got access to the systems Goode and his team used. There's still a lot to parse through, but one thing keeps jumping out at me. There's a frequent mention of 'The Subject'. I noticed that whatever it was, they had been extremely vague about what it was, and everything they did revolved around this subject and what they wanted from it. There's interrogation logs I still need to look at. I'm already suspecting those will be full of cruelties that will need to be reported. But that's not my number one priority right now. The identity of the subject is.

There's videos, but they're still encrypted. It will take some time to break through, but once I do, I'll be able to confirm my suspicions. And I hope to god I'm wrong. Just based on the details I've gleaned, it seems impossible. It was supposed to have been terminated. That was knowledge divulged to staff with our clearance level. But that would mean that's what they wanted us to believe. So if this 'subject' is really what I think it is, then the question is, what did Goode want with it? What was he willing to do to get what he wanted?

It would explain his demise, at least.

Will report back once I dig a little deeper and get a clear image of everything. Again, please, send any info you have concerning any of this. We need to start tackling this ASAP.

Get back to me soon,

Clara Manafort, Ethics Committee Liaison for Site-17
