

ANNUAL COUNCIL OF 108 GENERAL ASSEMBLY - 2023

Motion: The United Nations Global Occult Coalition shall heighten SCP Foundation containment regulations and raise the standard used when determining whether or not an anomaly is fit for research and containment.

The SCP Foundation is insured for as long as they continue to willingly cooperate with us. Cooperation, as we know, is a two-way street. An alteration to the Foundation's containment regulations is not a decision for us to make. Such a decision carries risks that we advise to avoid, lest we incite a far larger conflict. Goldbaker-Reinz votes "No."
= Goldbaker-Reinz Ltd. =

As of today, 3 Foundation facilities are located in Australia. All 3 of which have faced no issues in the last decade. Foundation operations remain running, and we have no reason to doubt the systems they have in place. A level of trust has been built. They've learned from their mistakes and have become better people in the process. Shall we pass this motion and ruin such a good thing? The AAIB votes "No."
= Australian Abnormal Investigations Bureau =

Not all anomalies deserve containment. Sometimes termination is the best method of keeping humanity out of harm's way. The Foundation doesn't seem to believe this, or at least they don't fully see how palpable of a situation they are in. The Foundation undoubtedly holds entities, towards which we should hold nothing less than disdain. These things are kept alive, while members of our species have been sent to death row for lesser crimes. For these reasons, MI666 votes "Yes". God save the King.
= British Occult Service =

No.
= The Conta-Cola Company =

The Foundation has contributed a great deal of research to our field. To tighten this council's grip on them, is to subjugate our peers. This motion is without purpose. We say "No."
= World Parahealth Organisation =

PROCLAMATION: DENIED. Altercations to current Coalition cross Foundation consensus = *Suboptimal configuration of diplomatic position*. Logic DOES NOT COMPUTE. *[Calculating]* Greater control over SCP Foundation assets // ParanaturalConflictRisk > 75%. **EVALUATION:** EXCHANGE UNJUSTIFIED.

PROCLAMATION: DENIED.

Must we continue to support the Foundation's near fetishistic desire to imprison for the sake of their hollow studies? My fellow councillors, it is without a doubt that the Foundation contains some of this world's most vile and reprehensible entities, ones

which are of the most inimical variety. For what purpose do they continue? The Bavarian Illuminati votes "Yes!"
