

THREAD SUBJECT: THAT POS AC

Michael,

My guy, my man.

Look, let me level with you bud. Top brass ain't gonna come down here fixing air conditioners, no matter how much I complain about it. So I'm gonna put my head down to the grindstone and fix this piece of shit myself when nobody's looking.

Jerome

Jerome,

Do you even know how to fix an AC?

Michael

Buddy,

I'm a mechanical engineer. This'll be like 1+1 for someone like you. As in, it'll be easy for me. That's what I mean.

Jerome

Jerome,

Alright.

Michael

Yo,

Alright check this out. I went to Storage to see if they've got like, spare freon or something. Look at THIS. This is flippin' crazy man.

Jerome

Jerome,

You're going to get tetanus dude.

Michael

Michael,

Yeah, no. Probably. Yeah. Ok, this was a bad idea.

Jerome

Jerome,

At this point, we should just buy a new AC.
