DESCRIPTION:

LTE-1874-Green-Ford-Blit was a humanoid entity possessing a chrome exterior, engraved with Ford imagery. The entity was classified as a Phase 4 Type Green and had the ability to distort and manipulate the space surrounding it, often transforming nearby matter into a hyper-entropic ash-like substance, referred to in Kewpie records as 'S/19-13'.

HISTORY AND LIQUIDATION:

LTE-1874-Green-Ford-Blit was first discovered in Portland, Michigan after the disappearance of a Kewpie facility in the region. The entity had been found traversing on a heading of 035 degrees at a constant velocity of █ miles/h.

Ego Strike Team 1977 "La Grande" was deployed to intercept and prepared an ambush near the James Bay hydroelectric power station. Upon spotting the entity, multiple Strike Team members possessing lower Cognitive Resistance Values expressed sensing an immense sense of dread, and desire to cease operations. Agent Pandura, an agent possessing higher CRV, remained unaffected, and engaged with the entity. This caused the effect to disperse among most men, however, at this point, the entity had already retaliated. Over 10 Ego Strike Team agents were terminated as a result of the ensuing firefight between La Grande and LTE-1874-Green-Ford-Blit.

LTE-1874-Green-Ford-Blit was destroyed via a precise 20mm caliber shot center mass.

Based on LTE-1874-Green-Ford-Blit's vector, the entity's intended destination was estimated by PHYSICS. Following this, Station 43 "Claushaven" was constructed to monitor the surrounding area.
